CIRCULAR FOR PARENTS

Higher Education Career Guidance System

Dear Parents,

I am sure you will agree that the joy of completing schooling is often subdued by the anxiety and apprehension over what is to be done next. Students and parents find themselves fretting over an endless array of career options, best institutes and popular courses, even before the child enters 11th grade.

Higher Education Guidance by DPS Indirapuram

Keeping in mind the need for guidance required for higher education Delhi Public School Indirapuram not only aims at preparing students academically but also helps them towards a rewarding and satisfying career. We realize that it is imperative for students to identify their aptitudes, interests, career goals and aspirations in order to make well-informed decisions concerning higher education. To help students in this task, Delhi Public School Indirapuram has partnered with Univariety– a Singapore based organization that provides a support system to the school counselor to manage all the senior students in a systematic manner on:

- An array of career options
- Finalizing on course and country where the student wants to and can study
- Indian and International colleges study options (including USA, UK, Canada, Singapore and others)
- Guidance on preparation of the entrance tests
- Timelines & deadlines
- Finalization of colleges to apply to and creation of backup options
- How to choose between final options – Admission
- Scholarships & funding options

The School has launched the higher education support system. It is an online support system where students can create a profile, make queries and interact with the School Counsellor along with the Univariety team.

Students & parents please click on the link mentioned below and let us help you in planning for your higher education.

Please Note: For profile creation, URL link is: <http://dpsindirapuram.univariety.com> Profiles have to be created only through this link.
