

Swatchhta Pakhwada ...

A cleanliness initiative for a better tomorrow

Serving the Motherland is real service to God. Let us devote ourselves to the cause of cleanliness and be a part of this iconic drive '*Swatchhta Pakhwada*' to make India a healthy nation. Let us resolve to turn Mahatma Gandhi's dream into a reality and our honourable Prime Minister's mission into success.

Universal Sanitation should be the topmost agenda for each one of us. It is imperative that every citizen should have access to safe sanitation, clean drinking water and a pollution free environment. Let us all strive towards a cleaner India by maintaining personal hygiene, stop defecating in the open, disposing the garbage at proper places, banning the use of plastics and implementing the 3Rs.

Let cleaning and organizing be a practice and not just a project, for only a clean today can usher a cleaner tomorrow...

Jai Hind!
